The Fairborn Municipal Court submits its annual report for the year ending 2023 in compliance with Ohio Revised Code Section 1901.14.

The contents of this report are based upon data assembled by the Clerk of Court, the Probation Department, The Supreme Court of Ohio, and the Fairborn Municipal Court staff. The following are noteworthy figures for the year 2023:

Total funds disbursed from all sources (traffic, criminal, and civil) in 2023 were \$ 3,262,803.91 up from \$3,049,912.41 in 2022.

The total number of traffic, criminal and civil cases filed in 2023 were 11,869 (not including reactivated cases), up from 11,330 in 2022.

Total funds disbursed to the City of Fairborn's general fund in 2023 were \$997,836.82, up from \$978,899.41 in 2022.

The City of Fairborn, Ohio, is the funding authority for the Fairborn Municipal Court and furnishes the budget for the Court's operation. However, the City of Beavercreek also contributes to the court budget and in 2023, contributed \$96,976.09 by way of reimbursement to the City of Fairborn for its share of the operating expenses of the Court. This was an increase from \$54,582.75 in 2022. The amount contributed is based upon a formula set forth in Ohio Revised Code Section 1901.026(8), which states that a municipal corporation within the territory of the municipal court is not required to pay that part of its proportionate share of operating costs of the court that exceeds the total amount of costs, fees, fines, bail, or other monies distributed to that municipal corporation.

The Court also utilizes its Special Projects Fund, Court Clerk Computerization Fund, and Legal Research Fund to pay for many of the Court's budget items. An overview of these funds and the manner in which the funds are expended is included within this Annual Report.

CRIMINAL AND TRAFFIC DIVISION

All criminal and traffic citations are filed with the Criminal and Traffic Division of the Court. Eight (8) full-time clerks are assigned to this section.

The Court is also fortunate to be involved in intern programs with Wright State University, Cedarville University, and occasionally other area colleges. Periodically, the Court has interns assisting the Court in the performance of its daily duties. The intern position is voluntary, and the student receives class credit and experience in the criminal justice system as a result of intern participation.

The duties of the personnel in the Criminal and Traffic Division include processing all cases from initial filing to final disposition; receiving, posting, and disbursing all fines and court costs collected; answering questions from the public; and accurately maintaining all court records and documents. They are also responsible for answering the telephones; filing cases; and issuing notices, subpoenas, and warrants. They perform record searches; complete reports and forms required to be transmitted to the Ohio Bureau of Motor Vehicles and the Bureau of Criminal Identification and Investigation; provide for inspection and copying of public records; enter decisions and dispositions into case dockets; and maintain the statistical records that are reported monthly to the Supreme Court of Ohio.

The Assignment Commissioners schedule all pending cases and wedding ceremonies. They are responsible for scheduling hearings, trials, and dispositions and coordinating the calendars of legal counsel to efficiently process cases through the court system. The assignment commissioners have assumed additional responsibilities of drafting entries.

CIVIL AND SMALL CLAIMS DIVISION

The Civil Section of the Court accepts complaints to recover money, resolve contract disputes, and other civil actions for claims having a monetary value of Fifteen thousand dollars (\$15,000) or less. Also, the Civil Division accepts complaints for eviction for the termination of tenancies and replevin complaints seeking the return of property. Two (2) full-time deputy clerks are assigned to the Civil Division. The deputy clerks process all cases from initial filing to final disposition. The deputy clerks also receive monies involved in civil cases, post the funds to the appropriate accounts and ledgers, and disperse said funds as required by law.

The Small Claims Division of the Court handles claims not to exceed Six Thousand Dollars (\$6,000.00). Small claims filings may be made by citizens with or without the assistance of an attorney. The deputy clerks assigned to the Civil Division also handle the complaints filed in the Small Claims Division. They schedule hearings and trials and receive, post, and disperse money as required by law.

In 2023, the Civil Division had total monetary receipts, which included Civil, Small Claims and Tenant/Landlord cases, of \$1,161,130.65 and disbursed the sum of \$1,187,501.56 at the conclusion of the cases to all required agencies.

CASES FILED AND TERMINATED

The Court reports monthly the number of cases filed, reactivated, and terminated to The Supreme Court of Ohio. The reporting method established by the Supreme Court is based upon the assumption that the Court has more than one judge, and the Supreme Court requires that this report method be used by all courts even if the court has only one judge. The reports that are required to be filed are called the Administrative Judge Report (AJR) and the Individual Judge Report (IJR).

All cases initially filed with a court are listed as new cases and are filed on the Administrative Judge Report. If a defendant in a criminal or traffic case pleads not guilty to a charge, the case is transferred to the Individual Judge Report and all activity of the case is thereafter reported on the Individual Judge Report. In civil cases, if a defendant answers a complaint or if a motion is filed that would require a ruling by the Judge or Magistrate, the case is transferred to the Individual Judge Report.

There were 14,497 cases filed and reactivated on the Administrative Report in 2023. This number includes all new traffic, criminal, civil and small claims cases filed in 2023, and all pending cases that were reactivated. A case is reactivated when a party who was previously unavailable becomes available to proceed with the case. A reactivated case may be from an earlier calendar year.

There were 14,052 cases on the Administrative Judge Report and 2,701 cases on the Individual Judges report that were heard, decided, and settled in 2023. There were 1,404 felony, criminal, traffic, civil and small claims cases pending before the court on December 31, 2023, that had not yet been completed.

Felony cases and small claims cases are only reported on the Administrative Judge Report.

FAIRBORN PROBATION DEPARTMENT 2023

The Fairborn Municipal Court Probation Department has numerous responsibilities and duties in connection with the operation of the Court. The basic responsibility of the Probation Department is to supervise those persons convicted of misdemeanor offenses who have been placed on community control sanctions (probation) by the Court. The Court during the course of sentencing may impose specific conditions upon an individual, which are relevant to that individual's specific life circumstances and the offense for which the individual was convicted. For example, for someone convicted of operating a vehicle while under the influence of alcohol or drugs (OVI offense), the Court may require that a drug and alcohol assessment be completed, and that as a specific condition of community control, the person complete any recommended treatment. It is the responsibility of the assigned probation officer to ensure that the orders of the Judge are followed and also to assist the person in accomplishing any other conditions of probation supervision. Probation supervision ensures that the person receives a level of care that will enable the person to avoid repetitive criminal behavior in the future.

The Fairborn Municipal Court Probation Department was assigned 449 new clients for probation during the calendar year of 2023. The average total monthly number of probationers supervised was 416. To service these individuals, there were 560 treatment referrals made during the calendar year of 2023, with most of the referrals made to drug and alcohol treatment service providers. Mental health, anger management, driver intervention programs and parenting classes are other commonly ordered assessments and programs.

The Probation Department has a responsibility to ensure that the Court's orders are followed, but also to provide some measure of public safety if a probationer has failed to meet the obligations of community control. When a probationer has violated the terms or conditions of community control, it is incumbent upon the probation officer to sanction appropriately and report to the Court violations as warranted. This may include issuing an arrest warrant for the probationer for violating the terms and conditions of probation. In 2023, 58 individuals had their probation revoked and their suspended sentences imposed by the Court for failure to comply with the Court's orders and community control requirements.

In April of 2019, a Pretrial Program was implemented. The pretrial program has three primary functions: collect and analyze an incarcerated defendant's information to determine risk level and needs of the defendant; address the public's safety; and supervise defendants who are released from custody during the pretrial phase if ordered by the Court. This program is essential before trial in achieving the central goal, which is to minimize unnecessary detention of defendants before trial who are likely to appear for scheduled court dates and who do not pose a safety issue to the public. The Probation Department assessed 943 incarcerated defendants in 2023.

Another responsibility handled by the Probation Department is the preparation of Pre-Sentence Investigation (PSI) Reports. These reports are prepared at the direction of the Court for the purpose of assisting the Court in determining the appropriate sentence for a particular individual. The Court refers a case to the Probation Department after a guilty plea or finding of guilt has been entered on the record for a particular individual. After an individual is referred for a PSI, he or she is interviewed by a Probation Officer and certain basic social background information is obtained from the individual.

The individual is also provided with the opportunity to provide a written statement to the Court as to the circumstances of the offense of which he or she has been found guilty.

The follow-up investigation would consist of reviewing all police reports and victim impact statements which may be submitted, as well as interviewing the victims or victim advocates. Restitution figures are determined during the course of the PSI as well as a determination made as to any special needs of this particular defendant relating to treatment or counseling. This information is compiled into a report and provided to the Judge, along with a recommendation as to sentencing for a particular individual. There was one (1) PSI report ordered and completed for the 2023 calendar year.

The Traffic Intervention Program (TIP) provides information and assists individuals who have been issued citations for Driving Under Suspension or Failure to Reinstate. The goals of the program are to divert cases from the court's docket, to determine what is needed to obtain a valid driver's license, and to provide this information to the individual so they can obtain a valid driver's license or obtain driving privileges within 120 days of their arraignment date. The defendant is also required to obtain insurance, thereby increasing the number of valid licensed drivers in our community. The success of the program is determined by the number of individuals who are able to obtain a valid driver's license or driving permit within 120 days. In 2023, 491 cases were referred to the program, and 304 individuals successfully completed the program.

The Probation Department is also responsible for the processing of applications for sealing or expungement of the records by those who have been convicted of criminal offenses and are requesting that their records of conviction be sealed or expunged. This process includes verification of their eligibility as well as determining the appropriate timeliness of the application. A total of 241 cases were reviewed and submitted for sealing records and 29 cases reviewed and submitted for expunging records in 2023.

The Community Service Program was established in the Fairborn Municipal Court in 1978 and is administered through the Court's Probation Department. The Program is designed to give nonviolent individuals the opportunity to perform some type of labor for government agencies and nonprofit organizations in lieu of incarceration. The Court sentences an individual to a jail term and suspends the jail term on the condition the individual perform work in the Community Service Program. Community service allows the Court to assign community service hours in lieu of jail, thus avoiding jail costs. All persons ordered to perform community service are interviewed by the Court's Probation staff. This process allows for the determination of the type of work the individual is able to perform. When possible, the defendant has a work assignment that fits his/her special talents. Release of Claims forms are signed by the individual releasing the Court, the City, and the participating agency from any and all claims. The individuals are provided a date to return to Court at the time of the initial interview. This procedure is to ensure compliance with the planned hours. During 2023, the Court assigned 10 participants to the program. A total of 344 community service hours were completed. There were no participants revoked from the program or jail time imposed.

The Court may use the option of Electronic Monitored House Arrest (EMHA) in lieu of jail or in conjunction with a jail sentence, providing the Court with more flexibility in sentencing an individual while also helping to alleviate the jail overcrowding situation. The individual is responsible for the cost of the EMHA, currently set at \$9.00 to \$11.00 per day, depending on the level of usage. A fund exists to pay for house arrest and alcohol monitors for those who are indigent and alcohol and/or drugs are involved in the offense. This fund is established by law and consists of reinstatement fees paid by those convicted of OVI's. EMHA consists of the individual being outfitted with a radio transmitter placed around his/her ankle or wrist which transmits a signal to a base unit in the individual's residence.

The individual on EMHA may be afforded the opportunity of work release which allows the individual to continue with his or her employment while on house arrest. The Court also has the option of requiring that an alcohol monitoring system be installed in conjunction with EMHA, so that the Court can ensure that an individual cannot consume alcoholic beverages while on house arrest. There is an additional fee per day for this service. Ninety-Seven individuals were placed on EMHA during 2023. This resulted in a savings of \$338,400 to the Greene County Sheriff's Office. Of those placed on EMHA, one (1) individual was revoked for violation of the conditions of EMHA.

The Probation Department is assigned the responsibility of monitoring Court ordered restitution payments. In certain cases, as part of the sentence imposed, the Court may instruct a particular individual to make restitution for financial losses that were incurred as a result of his or her actions. The probation staff monitors this restitution payment and, when proof or restitution has not been provided by the individual as instructed by the Court, the Court is notified of this lapse. A total of \$22,345.11 was collected and paid to victims in 2023.

The Fairborn Municipal Drug Court (FMDC) was implemented on September 15, 2015, and received final certification from The Ohio Supreme Court as a specialized docket on December 11, 2015. The Drug Court was recertified in 2017, 2020, and 2023. The mission of the FMDC is to provide a therapeutically oriented, court managed, treatment and monitoring program that assists participants with drug dependency diagnosis in developing a sober lifestyle through evidence-based intervention and the appropriate alcohol/drug/mental health treatment in a non-adversarial approach, as an alternative to traditional case processing. Since 2016, Fairborn Municipal Court has received a Specialized Dockets Payroll Subsidy Project grant from the Ohio Department of Mental Health and Addictions Services. This grant helps cover personnel expenses, both salary and fringe benefits, for the probation officer who supervises the Fairborn Municipal Drug Court caseload. Ohio law changed in 2021, to allow a court to subsidize a probation officer's salary who presides over a drug court from an Indigent Driver Alcohol Treatment (IDAT) Fund if there has been declared a surplus. The Court utilized this change to distribute funds from the IDAT fund to supplement this probation officer's salary and benefits.

In 2023, the Ohio Department of Mental Health and Addiction Services renewed the application of the Addiction Treatment Program (ATP) to all eligible counties in Ohio. Fairborn Municipal Court, TCN, and the Mental Health & Recovery Board of Clark, Greene, & Madison Counties were granted a rollover amount of \$35,057 of ATP funds to support active drug court participants. The ATP funds addiction treatment and recovery support services to clients who have been diagnosed with a substance use disorder. Time limited recovery supports may be utilized to help eliminate barriers to treatment and are specific to the participant's needs, including assistance with housing, transportation, childcare, job training, obtaining a driver's license or state identification care, or any other matter considered relevant by the provider. In 2023, there were two (2) successful drug court completions, two (2) unsuccessful completions, and one (1) neutral completion.

In November of 2017, the Court applied for and was awarded an 18-month grant through the Ohio Department of Rehabilitation and Corrections (ODRC) for an additional Probation Officer. The grant was the Justice Reinvestment and Incentive Grant (JRIG). This grant provided performance-based funding to Courts of Common Pleas, Municipal Courts, County Probation Departments, and Community Based Correctional Facilities to adopt evidence-based practices to reduce the number of individuals on probation supervision who violate the conditions of their supervision. That grant was renewed in the fall of 2021 and expired in the summer of 2023.

In July of 2023, the Court applied for and was awarded a 24-month Community Corrections Act 2.0 (CCA 2.0) grant through ODRC. The CCA 2.0 grant is a similar performance-based funding grant. These grants have been invaluable in creating and operating an Intensive Supervision section which works with moderate to high-risk individuals and aims to reduce revocations and incarceration of clients who need the additional resources and supervision capabilities.

It is incumbent upon the Court and its Probation Department to work in close cooperation so that the responsibility for protection of society, as well as the rehabilitation of the individual, can be met. Community control can be effective as long as it remains flexible in meeting the needs of the Court, as well as meeting the needs of the clients it serves.
